PROFILE

Frontend Developer with 2+ years of experience (including internship) building scalable web applications using React.js, Next.js, and Node.js. Proven ability to deliver full-stack features in production environments, integrate APIs, and ship maintainable, well-tested code. Open to relocation to Europe and comfortable working in English-speaking teams.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, ECMAScript, Python

Frontend Frameworks: ReactJS, Next.js, Gatsby

Styling: HTML5, CSS3, SCSS (BEM, SMACSS)

Frontend Architecture: Micro-frontend architecture, Webpack Module Federation

Backend Frameworks: Node.js, Express, NestJS

Databases: MongoDB, PostgreSQL

Messaging and Caching: Kafka, Redis

Search and Indexing: Elasticsearch, Lucene Query

Build Tools: Webpack, Babel, Gulp, Grunt

Testing: React Testing Library, Mocha, Chai, Jest, Enzyme

Visualization: Canvas, D3.js, Chart.js

DevOps: Docker, Kubernetes

CI/CD: GitHub Actions, GitLab CI

Version Control and PM: Git, GitHub, GitLab, Jira

OS and Scripting: Linux, Bash

AI Integration: MCP Servers, Agentic AI workflows, OpenAPI-based integrations, Elasticsearch-backed search

EXPERIENCE

Frontend Developer — City Wallet Private Limited

Jan 2024 – Present

Kathmandu, Nepal

- Built and shipped production React and Next.js features serving 2,000+ active users, with a TypeScript codebase tested using Jest and React Testing Library.
- Developed a CMS portal with Node.js and PostgreSQL that reduced content update time by 70% for non-technical teams.
- Built a TDS Report Generator automating tax compliance workflows, eliminating manual data entry and cutting processing time from hours to minutes.
- Created reusable MUI component library with SCSS (BEM), adopted across 3+ internal products for design consistency.
- Set up and maintained CI/CD pipelines with GitHub Actions, reducing deployment friction and enabling faster release cycles.
- Collaborated with designers and backend engineers in Jira-managed sprints to ship features on tight deadlines.

Frontend Developer Intern — SwiftStack Solutions Pvt. Ltd.

Jul 2022 – Dec 2023

Kathmandu, Nepal

- Developed frontend applications using React.js and Gatsby with HTML5, CSS3, and SCSS (SMACSS), contributing to the company-wide JavaScript design system.
- Worked on Node.js and Express backend tasks, integrating frontend applications with REST and GraphQL APIs using OpenAPI specifications.
- Configured build pipelines using Webpack and Babel; worked in Linux environments with Bash scripting for development automation.
- Implemented WebSocket-based real-time features for an internal dashboard and worked with MongoDB and PostgreSQL for data persistence.
- Managed version control and project workflows using Git, GitHub, and Jira; participated in peer code reviews to ensure code quality.

EDUCATION

Bachelor of Science in Computer Science and Information Technology (BSc. CSIT)

Tribhuvan University

Madan Bhandari Memorial

- Completed undergraduate studies in Computer Science and Information Technology.

PROJECTS

CityPay – Corporate Website & CMS

React.js, Node.js, PostgreSQL

- Built a corporate website and CMS serving 2,000+ active users, enabling non-technical staff to manage content and reducing update time by 70%.
- Engineered modular React component architecture with embedded maps and app download flows, cutting feature delivery time across similar pages.
- Designed RESTful API endpoints with PostgreSQL schema, ensuring data integrity for financial content.

Stellar HR Consultancy (Malta)

Next.js, React, Git

- Built an international corporate website with Next.js SSR and SSG, achieving sub-2s load times and improved search engine visibility.
- Structured pages for SEO with semantic HTML and metadata, resulting in improved organic search rankings.
- Delivered the project remotely with async collaboration via Git, meeting all milestones on schedule.

PSP Association Nepal – Official Website

HTML, CSS, Bootstrap

- Designed and deployed the official website for the Payment Service Providers Association of Nepal, accessible across all modern browsers and devices.
- Implemented fully responsive layouts with Bootstrap, ensuring consistent UX on mobile, tablet, and desktop.
